GABRIELLA BLAKEY 'Art in wood'

I studied Poster Art and Graphic Design in Rome before coming to this country. I joined the OCG in 1994 exhibiting painted furniture. In 2005 I introduced marquetry work using coloured veneers on wood panels to create contemporary, vibrant, decorative pictures drawn from the world around us. I like the feel of wood. Trees have brought us the first fire, the first wheel and a surface to write and paint on; and I like to feel part of this **natural environment**. **My graphic design background enhances harmony and symmetry in the designs I create.**
