## JUDITH GUSSIN Textiles

I trained originally as a Colour Chemist, dyeing and colouring fabric and threads which lead me to use these in my own textiles and pictures, including the 'Brass Bird with Still Life' I have a longstanding interest in Indian textiles, and have visited India twice, adding to my collection of Indian textiles which influence my designs and colour choices. I continue to experiment with dyeing natural materials and love the colour variations you can get in pure silk habutai scarves, as well as the silk/viscose stripe scarves.
